

A European crop portal for barley

Jan Svensson

NordGen

Before investing:

- user stats on all crop portals?
- who are using the current portals?
- which information is downloaded / searched for?
- view from Doc & Info WG?

NordGen

-a barley view on EURISCO

NordGen

Content available from EURISCO

- Passport data
- C&E data

Content not available from EURISCO

1. images
2. molecular data
3. GIS
4. Climate classification (landrace, CWR)
5. Expanded pedigree view
6. Info on research groups / projects

-options for the Barley WG

-a web interface (portal) “above” EURISCO?

or

-train researcher/breeders to use current EURISCO* C&E tool and add other accession information from links in EURISCO passport data (?)

or

-community wiki/homepage

*(*main issue non EURISCO accessions)*

NordGen

Should the barley WG wait?

-fragmented landscape

Triticea Toolbox, GOBII, Seeds of Discovery,
BRIDGE, Integrated Breeding Platform, DivSeek
