# C&E Data

## ➤ C&E Data from Austrian Accessions

- Available only from AGES, but not in EURISCO

Crop	Accessions with C&E data
Triticum	2350
Hordeum	1256
Avena	601
Phaseolus	571
Papaver	152
Linum	65
Maize	50
Glycine	23
Vicia faba	9
Panicum	1

# C&E Data

- Plant data, recorded during rejuvenation or multiplying, (sometimes only few details)
- Seed data, e.g. 100 kernel weight, seed colour, ...
- Evaluation data: plant health data (only in certain cases or on basis of a variety description)

# Obstacles to come forward

- ☞ Not enough (qualified) staff
- ☞ Too little financial resources
- ☞ Database and IT system must be renewed (MS Access or GRIN Global).

AGES
