1- Update of french data

- May 2016: all french data suppressed
- Insertion of 54 Allium, 570 barley, 1775 bread wheat, 2679 forage (Dactylis, Festuca, Lolium and Medicago) => 5078 accessions.

1- Update in preparation

Current state: only INRA lists.

- Cautious lists, excluding most of our exotic material, in particular from southern countries.
- Consensus lists, discussed with all the partners of our public/private networks for crop germplasm conservation when there is one.

Lists under agreement process with the curators (3029 accessions in total in the current lists):

- Grapevine: also corresponds to a big local update of the catalog of the collection (7880 accessions)
- Potato (99 accessions)
- Brassica (1212 accessions)
- Pepper (80 accessions)
- Eggplant (80 accessions)
- Pea (612 accessions)
- Melon (98 accessions)
- Tomato (55 accessions)
- Citrus (793 accessions)
- Prunus (in progress)
