

Forages 2020 workshop

9-11 November, NordGen
Alnarp, Sweden

Anna Palmé
2015-11-09

Aims and goals

- Part of the ECPGR funded project “ECPGR WG for Forages towards 2020s”
- Aims
 - progress towards the establishment of the European Forage collection in line with the AEGIS goals
 - inventory of characterisation and evaluation data available for forages in Europe and to facilitate the inclusion of this data into EURISCO
 - development of a work plan for the ECPGR Forage WG for the coming years (goal: focus on *in situ* conservation than in the past)
- Include also WG members not in the project (On-line participation (Onstream) and self-funding)
